Bott In Service

There are many legislative requirements for storage in the areas of health and safety, security, personal protection and shopfloor documentation. It is essential therefore for modern, effective working practices to have the associated items stored correctly and securely.

Quickship

The Bott range provides a quality solution, which is easily integrated with our standard storage equipment.

Drawer Cabinets

- Flammable substance storage cupboards
- Security storage cupboards
- Personal protective equipment storage
- First aid stations and storage centres
- Shopfloor quality control stations
- I.T. Storage

Hazardous substance Storage Cupboards

Flammable Storage

These cupboards from Bott provide safe and secure storage for flammable liquids and materials.

Type A

Supplied with adjustable shelves, each slotted allowing spills to drain through to the base sump. Perfect for applications involving a large amount of liquids.

Type B

Supplied with sealed shelf trays. Ideal for applications using small amounts or occasional liquid storage.

All models are finished in safety yellow (RAL1023) powder coating, and fully labelled to UK and European standards.

- Full safety labelling to BS5499-5:2002
- Restricts staff access to hazardous substances
- As required by safety guidelines, and often recommended by insurance companies

Perforated shelf - Liquid drains through to removable base sump (shown below).

Sealed shelf - Liquids are contained within the shelf.

BS5499-5:2002 safety labelling supplied

***Quickship version available

Personal Protection Equipment & First Aid Stations

PPE Equipment

Personal protection equipment needs to be correctly stored within the workplace, our range offers a variety of different styles

PPE cupboard

A lockable storage centre for clothing and related items. A central vertical divider separates full height hanging and shelving areas. A hanging rail and four adjustable shelves are supplied.

Freestanding workstation

Perfect for supervisors needing to control and log PPE equipment. Our unit has an angled top with document retaining strip and pencil well, single lockable drawer and lockable cupboard with adjustable shelf.

Freestanding cabinet

With 6 smooth running roller bearing mounted drawers it is ideal for workshop use combining PPE storage with tools or components, fully lockable with top tray and inlaid rubber mat.

Standard colour scheme is RAL7035 grey with RAL3001 red doors and drawer fronts. Green, grey and blue fronts are also available.

Type	Dimensions WxDxH (mm)	Contents	Order ref.	Price £
PPE Cupboard	1000 x 500 x 2000	4 adjustable shelves, hanging rail	100 18 195.1604	511.00
PPE Workstation	500 x 500 x 1100	150mm drawer, 725mm cupboard with adjustable shelf	100 18 559.1604	226.00
PPE Cabinet	500 x 500 x 800	4 x 150mm, 2 x 150mm drawers	100 01 112.1604	473.00

First Aid Stations

Bott First Aid stations ensure your equipment is readily available if accidents happen.

Dedicated storage areas promote good house-keeping of First Aid equipment making stock control easier and ensuring supplies are in good condition when needed.

Finished in modern RAL7035 light grey and supplied with First Aid labelling these are suitable for any working environment.

The wall cupboard is supplied complete with hook and bin kit as shown.

Please note due to the wide variety of requirements, First Aid supplies are not included with these items.

<i>Item</i>	<i>Dimensions WxDxH (mm)</i>	<i>Order ref.</i>	<i>Price £</i>
Workstation	500 x 500 x 1100 / 1750	100 01 125	297.00
Wall Cupboard	920 x 300 x 720	100 33 062	223.00

QA Workstations

Bott Workstations provide a central location within a workshop for the storage of tools, documentation and management material.

Basic units are offered in two widths, and with two drawer types. The 300mm drawer has the ability to accept most hanging files. Drawer and cupboard section are both independently lockable.

Accessories may be added at any later date, and include a rear tool panel and overhead canopy, lighting and tool holding accessories.

Labelling to Control Points and Workstations is not supplied as standard, please ask for details.

- Angled worksurface, with paper stop and integral tray for pens and pencils
- Lockable cupboard section for larger components and spares. Adjustable shelf supplied
- Shallow drawer for tools, or deep drawer for hanging files. Both lockable
- Optional rear tool and drawing display panel with facility for overhead light unit

All prices shown are inclusive of mainland U.K. carriage and subject to V.A.T. The Prices are correct at time of publication (Jan 2006) however due to fluctuations in the raw material cost they are for reference only. To confirm the current price please contact your dealer or log on to www.bott-group.com.

Colour	RAL code	Suffix	Colour	RAL code	Suffix

Vertical	100 33 072.16	33.00

The TFT lectern and CPU trays are supplied in RAL7035 grey only. The computer cupboard is available in the standard colour options.

SC Security Cupboards

There is often a need to store valuable items within the workplace, our SC cupboards are designed and built specifically for this purpose to provide a high capacity, high security cupboard.

- Constructed in heavy gauge steel: (doors 2.0mm, body 1.5mm)

- High tensile steel pivot hinges deeply recessed to prevent access by saw
- Comfort grip, high security three point locking system
- Generous depth to accept most types of computer equipment
- Supplied with adjustable shelves, each with

150kg U.D.L. capacity

- 2000mm and 800mm high versions
- Both units measure 1000mm wide x 500mm deep

To ensure maximum security these units should be firmly fixed to floor and/or walls.

SC cupboards are designed on a modular principle, and can be integrated with many other Bott products. Shown above is a low level SC cupboard used with workbench components from pages 60 - 61.
